AMENDMENTS IN THE SPECIFICATION

Please amend paragraph [0035] of the specification as follows. A clean copy of paragraph [0035] is attached to this response.

--Returning to Figure 4, once an EPID (202) has been associated with the data (204), the data is stored as a data set (200) in a buffer (116) (Step 404). If the EPIDs are defined on a per-consumer basis, then the data sets (200) are stored on in a per-consumer buffer. Alternatively, if the EPIDs are defined on a per-system basis then the data sets (200) are stored in a non-consumer specific buffer.--

CLEAN COPY OF PARAGRAPH [0035]

--Returning to Figure 4, once an EPID (202) has been associated with the data (204), the data is stored as a data set (200) in a buffer (116) (Step 404). If the EPIDs are defined on a per-consumer basis, then the data sets (200) are stored on in a per-consumer buffer. Alternatively, if the EPIDs are defined on a per-system basis then the data sets (200) are stored in a non-consumer specific buffer.--
